Smart Villa Solution

HomeScenario, Inc.

HomeScenario Villa Architecture & Application

homescenario

Smart home made easy!

Demands for Smart Villa

- **Peace-of-mind:**

- Secure (protecting family members and assets)
- Green (energy awareness & saving)
- Convenient (ease-of-use)
- Comfort (better scenario, quality of life)

- **Under control:**

- Lighting, dimming
- Motorized curtain, shades, garage gates
- HVAC, air-conditioner
- Audio/video
- Sensors, monitoring
- Smart and automatic scenario

- **Anytime, anywhere:**

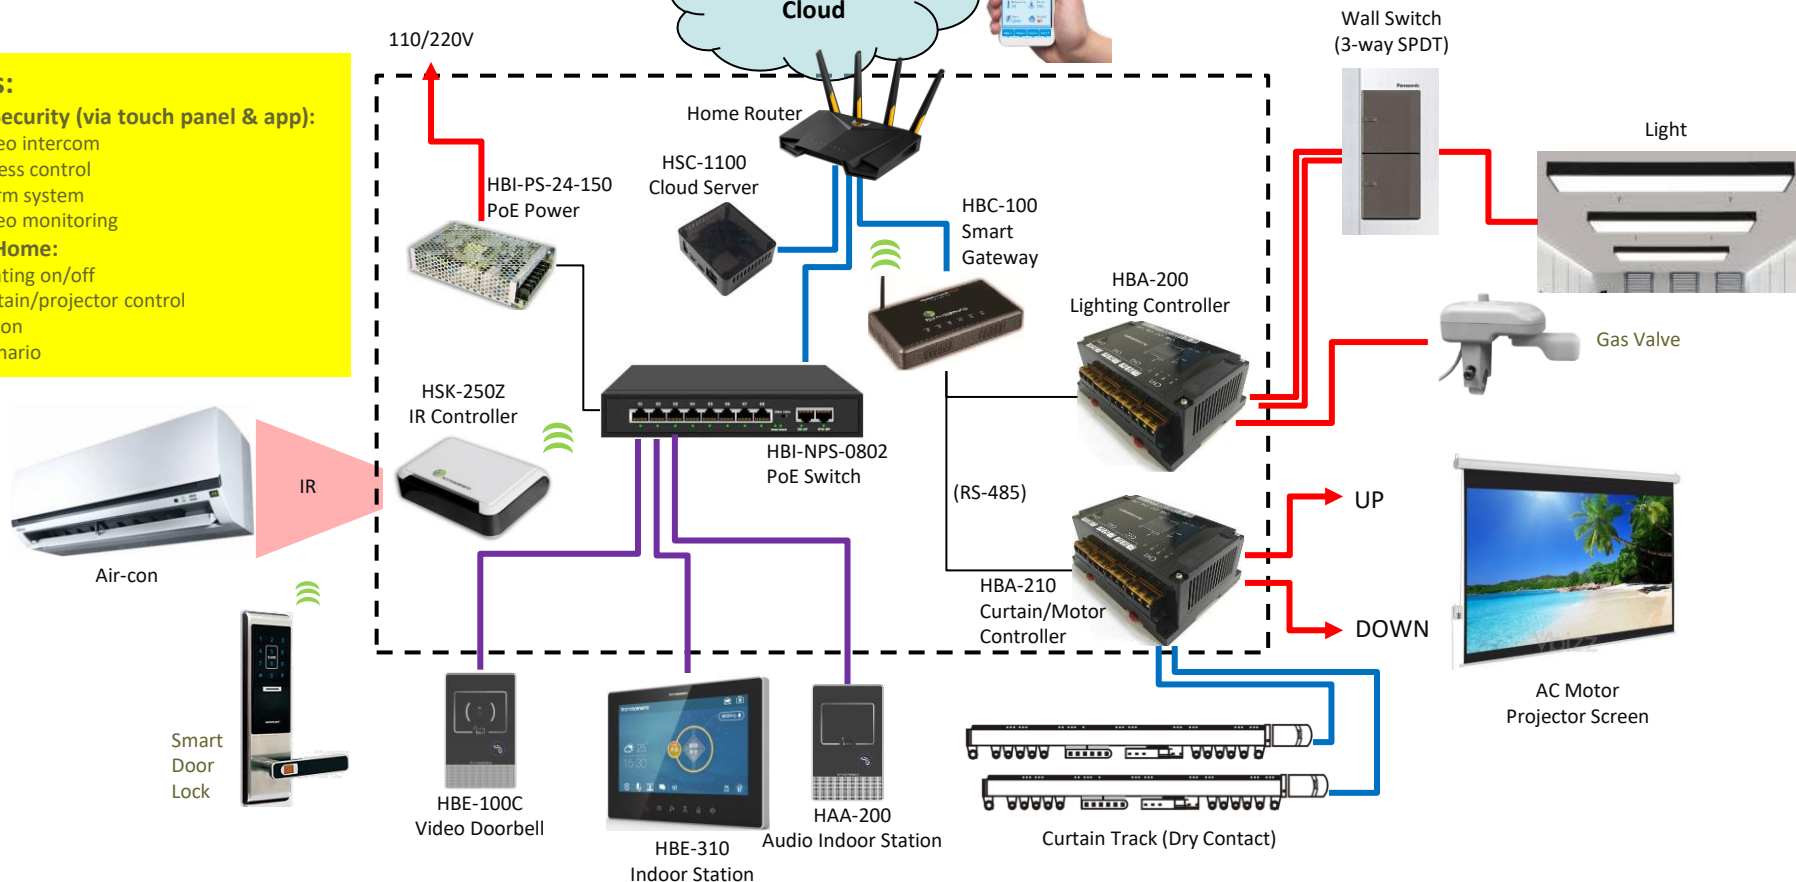

- Indoor touch panel
- iPhone/Android App

Smart Villa Diagram

📶 RF
 — AC Cable
 — LAN Cat-6
 — PoE Cat-6
 📶 Wi-Fi/4G

- Features:**
- **Cloud Security (via touch panel & app):**
 - Video intercom
 - Access control
 - Alarm system
 - Video monitoring
 - **Smart Home:**
 - Lighting on/off
 - Curtain/projector control
 - Aircon
 - Scenario

Smart Villa Touch Panel

- *Multi-functional integration*
- *Fully customized scenarios and user interfaces*
- *Easy to deploy, wired and wireless*
- *Notified, monitor and control from anywhere*

Integrated Features

- **SIP/IP Intercom:**
 - Indoor touch panel vs. video doorbell
 - iPhone/Android cloud intercom vs. video doorbell
- **Access Control:**
 - During intercom, indoor touch panel or iPhone/Android to unlock door for guest
 - RFID or dynamic QR Code access control
 - Garage door control
- **Alarm System:**
 - System arm/disarm via RFID or iPhone/Android
 - Instant siren alert
 - Instant cloud push alarm message to iPhone/Android App

Integrated Features (cont'd)

- **Monitoring:**

- Monitor live camera video from indoor touch panel or iPhone/Android anywhere
- Aware of any sensor status via iPhone/Android

- **Smart Home Automation:**

- Home controls:
 - Lighting on/off/dim
 - Appliance on/off
 - Window curtain/shades, garage gate
 - Thermostats
 - Audio/video
- Scenario control; one touch does it all
- Control via indoor station, or anywhere via iPhone/Android

Main Products

homescenario

Smart home made easy!

Smart Villa Equipment Examples

Product	Model	Install	Power	Remarks
Indoor Station	HBE-200(7") HBE-310(10.1")	2-Gang	PoE	1-4 each villa
Audio Indoor Station	HAA-200	1-Gang	PoE	1-4 each villa
Video Doorbell	HBE-100C	1-Gang	PoE	1-2 each villa
PoE Switch	HBI-NPS-0802	ELV Box	HBI-PS-24-150	1 for 8 devices
Cloud Server	HSC-1100	ELV Box	HBI-PS-5-35	1 each villa
Smart Home Gateway	HBC-100	ELV Box	12V	1 each villa
Lighting Control	HBA-200	ELV Box	12V	8CH on/off
Curtain Control	HBA-210	ELV Box	12V	2x Dry Contact, 1x AC Motor
IR Control	HSK-250Z	Desktop	12V	IR line of sight

IP Video Doorbell

HBE-100C

Features	Technical Spec
<ul style="list-style-type: none">• Wide angle, high quality CMOS camera• Elegant industrial design with painted ABS frame and tempered glass front panel; which can well fit various interior design styles• Wall-mount 1-gang installation, slim outlook thickness• Supports IP network, works with HBE-200/310 indoor stations• LED illumination during intercom for night vision• Automatic snapshot during intercom for further verifications• Indoor station can monitor camera video from HBE-100C• Embedded RFID reader for controlling door lock or security alarm arm/disarm	<ul style="list-style-type: none">• Power 12-24V DC• Camera CMOS wide angle• Op. Power 4.5W• Standby 0.5W• RFID Mifare 13.56MHz• Network RJ-45 Ethernet• I/O Lock/Open• Installation 1-Gang• Protection Indoor/Outdoor• Materials Painted ABS frame, with glass-type front panel

10.1" IP Indoor Station

HBE-200 (7")

HBE-310 (10.1")

Features	Technical Spec
<ul style="list-style-type: none"> • 7" or 10.1" LCD with capacitive touch panel • Elegant, slim industrial design with painted ABS frame and tempered glass front panel • Integrated features: alarm (8 zones), intercom, monitoring, message service, home automation • Integrated access control such as door lock, elevator floor control • Video intercom with video doorbell, outdoor intercom station, intercom console, and other indoor stations in the same network • Monitors video from video doorbell, outdoor station, CCTV/DVR or IP camera (via HBI-VS) • Displays information messages • Home automation user interfaces for controlling lighting, thermostats, window shades, audio/video, etc. 	<ul style="list-style-type: none"> • Power 12-24V DC • Display 7" or 10.1" TFT LCD • Touch Panel Capacitive • Network RJ-45 Ethernet • Alarm Input 8 zones • Siren Output 1x (optional) • Serial RS-485 (optional) • Installation Wall-mount • Protection Indoor • Materials Painted ABS frame, tempered glass front panel

Smart Home Control Gateway

HBC-100

Features	Technical Spec
<ul style="list-style-type: none">• Can expand RS-485 for wired smart home control• Also supports Z-Wave 2-way mesh networking, RF range up to 30m indoors• Provides digital input/output connections• Controls various home systems, e.g. light switch, thermostat, door access, window shades, security monitoring, A/V equipment, as well as scenarios• Controls via iPhone/iPad/Android/intercom touch panel• Always updates system status and allows controlling from anywhere via HomeScenario AIoT Cloud Platform• Works with central management server for large scale deployment with HomeScenario Smart Building System	<ul style="list-style-type: none">• Power 12V DC• LAN RJ-45 Ethernet• Wireless Wi-Fi/Z-Wave• Installation Desktop• DI 4x• DO 1x• Serial RS-485 (USB)• Program Button for device program/association and factory reset

SIP/IP Cloud Smart Home Gateway

HSC-1100

Features	Technical Spec
<ul style="list-style-type: none">• Cloud-based smart building service message publication, for individual or a group of users• Cloud-based alarm event process and notification to iPhone/Android App• Cloud-based SIP intercom forward; when system is switched to preset mode the intercom call will be forwarded to iPhone/Android App, so user can monitor and talk anywhere and unlock door during intercom• System log and query	<ul style="list-style-type: none">• CPU ARM Cortex A53• RAM 1G DDR3• Flash 8G SSD• OS Linux/Android• SD Card Supported• Serial USB• LAN RJ-45 GbE• Power Type-C 5V/3A• Install Desktop• Dimension 66x58x25mm

Smart Home I/O Module

HBA-200/210

Features	Technical Spec
<ul style="list-style-type: none">• Supports RS-485/Modbus for wired smart home control• Provides 8 NC/NO relay outputs with high rating, which can be used to control lighting on/off or window curtain• Can be used to switch load of AC or DC• Max loading (each load): Resistive 20A x4, 10A x4• Also provides 8-channel digital inputs, which can be connected with sensor or scenario button• DIN-Rail installation	<ul style="list-style-type: none">• Serial RS-485• Digital Input 8x digital inputs, terminal blocks• Relay Output 4x 20A, 4x 10A COM/NC/NO; terminal blocks• N Neutral wire, for power status detection• Installation DIN-Rail• Dimension 155x110x60mm

IR Control Station

HSK-250Z

Features	Technical Spec
<ul style="list-style-type: none"> • Receives commands from gateway and transmits IR signals, either by internal IR transmitter, or IR emitter cable (HSK-10) • Embedded with IR database for A/V system • Supports IR code learning for A/V and HVAC systems • RiteON™ technology which auto detects equipment on/off status by connecting with the power detector, so as to assign the exactly correct IR command pre-defined by scenario • When acting as a host controller, arranges scenarios for lighting, AV system, projector screen, window shades, thermostat • Supports RS-485 for connecting with host controller • You can use iPhone/iPad/Android or IP intercom touch panel to easily control, from anywhere 	<ul style="list-style-type: none"> • Power 12V DC • Connection Z-Wave • Frequency 32-500KHz • IR Blaster IR LEDs for 270° transmission, 5m range • IR Cable Via 3.5mm phone jack

Wiring Instruction:

Window Curtain

Notes :

Connect the HBA-200 relay outputs to contacts of motorized track. Please avoid high-voltage power.

Summary

homescenario

Smart home made easy!

HomeScenario Solution Advantage

- Flexible, scalable, powerful
- Well integrated *smart building* solution: *IP intercom, alarm, access control, surveillance, home automation*
- *Cloud-based*, can be accessed and controlled *from anywhere* via the Internet
- *Wired & wireless* control technologies, flexible installation per project requirements
- Open architecture for cloud system, easy to *integrate* value-added services/systems and *maintain*

HomeScenario Vision

Asia's Leading Provider for Smart Building System
